

## How to fix the furpompon to the caps

The furpompons can be removed and re-attached for washing the cap!

1. Keep ready cap, pompon with sling, stopper and toothstick.

2. The sling is pierced in the center on top of the cap.

3. Use the toothpick (or needle) to pierce the sling.

4. Pull the furpompon to the cap.

5. Turn the cap and pull on the cord again.

6. Prepare the sling and press the stopper together.

7. Press the sling through the stopper.

8. Pull the sling through the stopper.

9. Fully tighten the stopper to the cap.

10. Make a knot.

11. Pull the knot close to the stopper.

12. Turn the cap and the pompon holds.

The caps can be worn with or without a pompon! You can also put other pompoms of a different colors on the cap.

Please wash the wool caps at max. 30 degrees by hand! Please remove the furpompon from the cap before washing as shown above, thank you!

Have fun with our cap!
